flexteller²¹™

Remarkable Simplicity

Proven Reliability

Robust Functionality

Check 21 image exchange now enables each financial institution to acquire utmost in operations efficiency. FlexTeller is a proven-successful teller automation solution performing not only complete transaction processing for tellers, but seamlessly integrating image capture within teller workflow. The result is a fully balanced transaction suitable for image exchange without back counter scanning or proof operations requirements.

When relying on FlexTeller, tellers focus on customers. Courtesy and legal amounts are automatically recognized to reduce manual data input; MICR lines auto-populate FlexTeller fields and auto-balancing features ensure each transaction is completed accurately. Large deposits are easily managed, helping tellers better serve their customers and limit wait times. Fully online with the core account processing system, tellers are provided comprehensive account information within each transaction, greatly simplifying the customer service experience.

Check images are acquired at the onset of any teller transaction

Imaging layer is "hidden" from typical teller workflow

Routing	Account	Check	Amount	Type	Trn. Code	CAR-LAR
065114104	570006010273	1785	\$125.00	Debit	Passed(857)	
065114104	100200002440	007791	\$208.14	Debit	Passed(818)	
065114104	202200000851	015178	\$437.62	Debit	Passed(1000)	

MICR line and amount recognition software automatically completes FlexTeller input fields to speed transactions

Deferred transactions can be recalled for later scanning at the teller window or at any other desk in the same location.
